OBJECTIVE

I am a final-year Computer Science Engineering student seeking a software-based role where I can apply my technical knowledge, contribute effectively to organizational goals, and enhance my skills through continuous learning and innovation.

EDUCATION

Bachelor of Technology (Computer Science Engineering) 2022 – Present
Malla Reddy University, Hyderabad, CGPA: 8.40

Intermediate (MPC) 2020 – 2022
Aditya Junior College, Bhimmavaram, CGPA: 8.25

Secondary School Certificate (SSC) 2019 – 2020
St.Anns English Medium High School, Bhimmavaram, CGPA: 10.0

SKILLS

Programming Skills: Java
Technologies: Web Development, Data Analytics
Tools: MySQL, VS Code, Git

PROJECTS

Employee Management System
Tools: Java, JDBC, MySQL

- Built a console-based system for managing employee data.
- Implemented CRUD operations using JDBC with MySQL database.

Car Rental Admin Dashboard-React Web Application
Tools: React.js, CSS, JavaScript, JSON

- Built a responsive admin dashboard for car rental management.
- Implemented booking and payment modules using React components.

Crime Rate Analysis-Interactive Dashboard
Tools: Power BI, Excel, Data Analytics

- Analyzed crime datasets to identify yearly and regional trends.
- Created interactive dashboards for visualizing crime data.

CERTIFICATIONS

- LearnQuest – Introduction to Java
- Rice University – Python Programming Essentials

TECHNICAL STRENGTHS

- Problem-Solving
- Quick Learning
- Time Management
- Team Collaboration
